PROFESSIONAL SUMMARY

Data Analyst with 1+ year of experience delivering end-to-end analytics solutions — from data extraction and pipeline design to executive-ready dashboards — across elderly care, digital analytics, and education domains. Proficient in SQL, Python, and Power BI, with a track record of translating complex datasets into clear, decision-ready insights for cross-functional stakeholders. Recognized with VTAB Square's Rising Star of the Year 2025 award for outstanding delivery on a milestone project.

CORE COMPETENCIES

Data Analysis & Reporting • ETL & Data Pipelines • Dashboard Design (Power BI/Excel) • SQL Query Optimization • Stakeholder Communication • Machine Learning • Data Quality & Governance • Cloud Data Platforms (GCP)

PROFESSIONAL EXPERIENCE

Data Analyst | VTAB Square Pvt Ltd

Aug 2025 – Present · Chennai

- Own end-to-end delivery of analytics solutions across four concurrent reporting lines — Elderly Care, Google Analytics, Educational, and LLM Model Reporting — enabling stakeholders to make faster, data-driven decisions.
- Architect data extraction and transformation workflows across SQL Server Management Studio, PostgreSQL, and Google Cloud Platform, improving data accuracy and streamlining recurring reporting cycles.
- Design and maintain interactive Power BI and Excel dashboards that surface key KPIs and trends, becoming the primary reporting reference for stakeholders and cross-functional teams.
- Partner directly with business stakeholders to translate ambiguous reporting requests into structured, scalable dashboard solutions.

Junior Data Scientist Intern | Grad Twin Service Pvt Ltd

May 2025 – Aug 2025 · Chennai

- Built a repeatable data preparation workflow in Python (Pandas, NumPy) — retrieving, cleaning, and validating structured datasets ahead of modelling.
- Developed and evaluated supervised learning models (classification and regression) using Scikit-learn to support predictive analytics initiatives.

KEY PROJECTS

Grand World Elderly Care Dashboard (Power BI)

Sep 2025 – Nov 2025 · Chennai

- Built an interactive Power BI dashboard consolidating real-time sales and operational data for elderly care services, surfacing KPIs such as total revenue and monthly growth to guide operational decisions.
